**Comments:** (If possible, please reference section and/or page number in document if applicable.)

I am opposed to transporting and  
burying nuclear waste in Nevada.  
This project is supposed to be based on  
science and the only thing that has  
been proven to me is that it all  
boils down to money. I was raised  
to care about the future of my fellow  
man + the next generation. How about  
you?

Please note: For your comment(s) to be considered by the Secretary of Energy before a decision is made whether to recommend the site to the President, your comment(s) need to be received by the U.S. Department of Energy by September 20, 2001. To the extent practicable, the Department will consider comments received after September 20, 2001.
